

# broadband4trellech

and surrounding areas:

Llanishen, The Narth, Whitebrook, New Mills,  
Parkhouse, Catbrook and Lydart

By registering your interest you are helping to bring  
Broadband to Trellech.

Ultimately this will bring benefits to the local community by...

- Helping local businesses
- Improving infrastructure for local services such as the Post Office and Doctors Surgery
- Helping local children & students with their home studies
- Enabling more people to work from home

**Don't let Trellech get left behind!**

**We need your support now to help bring Broadband  
ADSL technology to the Trellech Exchange.**

# What is Broadband?

- **Use your telephone whilst on the net**

Access the internet and make/receive telephone calls at the same time. No need for a second line. No more missed calls or having to disconnect from the internet to make or receive a call.

- **Always-on connection**

Unlike a standard dial-up connection, which makes you wait whilst your computer dials your ISP each time you wish to access the internet, ADSL is always connected. No waiting to connect, no busy tones, no disconnection after 1 or 2 hours.

- **Fast Downloads**

Up to ten times quicker than a standard 56k modem dial-up connection.

- **Low fixed cost with no internet call charges**

A set monthly charge covers all your internet access, no separate bill for internet calls charges. No need to restrict internet access to off-peak times - the fixed monthly charge entitles access anytime - day or night, weekdays or weekends. With some ISPs now offering ADSL for as little as £20.99 per month, this is a cheaper option than paying for unrestricted 24/7 dialup plus the cost of second phone line.

- **Excellent for Gamers or Homeworkers**

The lower pings, increased speed and the always-on nature of ADSL make it a perfect choice for online gamers. No more having to re-dial part way through your game.

# Why the campaign?

Over 80% of the UK population can already access Broadband, including many of our surrounding areas. Neighbouring exchanges including Monmouth, Chepstow, Ross and Coleford have all been upgraded for Broadband, but adjoining rural areas such as Trellech have been overlooked and are unlikely to receive the service unless local residents show a strong demand.

The aim of the campaign is to encourage local residents to register their interest in Broadband. BT regularly monitors the level of interest for each exchange, conducting regular reviews to look at the costs of upgrading, compared with the expected return on investment. We have a viable business case and BT have now set a 'trigger level'. This is the target level of registrations we must achieve before BT commence work and install the necessary equipment at Trellech. The trigger level has been set at 200 registrations.

Trellech (Trelleck) exchange has 674 residential and 80 business connections giving a total of 754 potential customers for Broadband. At time of going to press we had 156 registrations, and you can monitor this data live on our web site at [www.trellech.net](http://www.trellech.net). **So we need fewer than 50 additional registrations to meet the trigger level and hopefully secure Broadband for our area.**

If you are not yet ready for Broadband or perhaps don't yet use the Internet, we still need your support. Every BT customer on an 01600 86XXXX number who registers their interest is helping to increase demand and bring forward the enablement date for our exchange. In other words you are genuinely helping your community.

## **There are four ways you can register your interest...**

1. Via your ISP (internet service provider). They will pass on the details to BT
2. Via the BT Broadband Web Site @ [www.btbroadband.com](http://www.btbroadband.com)
3. Via email to: [register@trellech.net](mailto:register@trellech.net) quoting
  - FIRST NAME
  - LAST NAME
  - TEL No.
  - POSTCODE
  - BT ACCOUNT No. (its in the top left corner of your bill e.g. SW12345678)
4. By completing the pre-registration form overleaf, posting or faxing it to the campaign organiser. (Further copies can be printed from the web site to give to a friend or neighbour who does not have Internet access)

Please be assured if you send this information to the campaign organiser, it will remain confidential and will be used only to register your interest with BT.

**BY REGISTERING YOUR INTEREST THERE IS NO OBLIGATION TO TAKE UP THE SERVICE WHEN IT BECOMES AVAILABLE.**
