

Broadband for Trellech Campaign

and surrounding areas; The Narth, New Mills, Whitebrook, Llanishen, Parkhouse, Catbrook, Lydart etc.

Would you or your children benefit from a high-speed always-on Internet connection that allows simultaneous telephone usage without the requirement for a second line? Connection speeds can be up to 10 times faster than a dial up modem!

If the answer is yes, then please help to bring Broadband ADSL technology to the Trellech telephone exchange. Monmouth (inc. parts of Penallt) , Chepstow, Ross and Coleford now have ADSL Broadband. However, most adjoining rural areas are unlikely to receive the service unless local residents show a strong demand.

If the answer is "maybe" or "not at the moment", we still need your support. Every BT customer on an 01600 86XXXX number who registers their interest is helping to increase demand and bring forward an early review date for our exchange. In other words you are genuinely helping your community.

There is no obligation to take up the service, but for BT to consider installation of the necessary equipment at the exchange, they need to see a level of demand of at least 150 BT customers who have registered their interest.

Further information is available on www.trellech.net where you can find out more about the campaign and find out how to pre-register. Alternatively please complete the form below and return to Richard White, the local campaign coordinator who will pass on your details to BT.

PLEASE NOTE BY COMPLETING THIS FORM YOU ARE MERELY REGISTERING YOUR INTEREST. THERE IS **NO OBLIGATION** TO TAKE UP THE SERVICE WHEN IT BECOMES AVAILABLE.
