Wyenet has been in business for 7 years providing Internet Services for business and discerning home users. We believe that customer satisfaction is the most important aspect of our business and we are pleased that most of our customers are people who have been referred to us by other happy clients of ours.

With the advent of Broadband in new areas we feel we have an opportunity to extend our customer base by offering our flexible and personal service at a competitive rate, especially to groups such as yours. We are no cheaper but we offer a real person support line at a local call charge and we do not charge extra for handling your e-mails. We are here to listen to your needs and set your service up as you want it.

We understand that a concern might be that you will have to change your e-mail addresses, but you may have to anyway even if you stay with your present provider. Some providers even charge extra if you want to use joe@timbertops.org.uk rather than an address with their name in it. We rarely charge extra; perhaps a one-off set-up fee if it is a complex operation. Changing e-mail address is easy...you mail everybody with your new one and then it is down to them!

Our broadband services start at a reasonable speed and price. Our basic service is the 'Budget Home 500' service which has a 512kbps download (all our services have a 256kbps upload) at £27.99 per month inc VAT and we are pleased with the speed of this service. We offer 5 even faster services in addition to this to satisfy all users' needs. Please look at our website www.wyenet.co.uk and follow the ADSL link.

As a special deal for the Trellech we can offer the following: A FREE modem, FREE set-up and, if 100 or more join us on an annual subscription, we can offer 13 months for the price of 12 for those who do. This means that for a payment of £335.88 you could have Broadband with no extra charges for 13 months, meaning that you only pay £307.89 for the second year.

We also offer a virus and spam checker on your e-mails for an extra £29.38 which give you great peace of mind.

Please contact us for further information; we shall be very pleased to help you and perhaps have an opportunity of welcoming you as a client.
